Getting started with Portage online college courses

STEP 1

Review your academic record with an advisor at your school of intent or current college, university, or professional program to determine the course(s) that you need. Confirm the Portage course(s) your school will accept. Key factors for transfer acceptance are: institutional accreditation and course content.

STEP 2

Register with Portage Learning online at www.portagelearning.com.

STEP 3

Work through the lesson modules, labs, and exams using our online delivery system.

STEP 4

Access additional study resources.

STEP 5

Request transcripts to be sent to the schools of your choice.

What are the advantages of Portage Learning?

Meet deadlines

Asynchronous courses enable you to learn at your own pace and complete work as your schedule permits.

Meet course requirements

The course offerings allow you to meet academic requirements, enter, and progress through your degree program with the foundational contexts needed for success.

Instructional support that exceeds onground support

Students receive more personalized interaction with their instructor than is typically available with large onground classes. Portage Learning instructors are renowned in their areas of expertise and are consistently recognized for their professional and academic achievements. Your instructor is committed to your success.

Meet the challenges ahead

Content can be reviewed multiple times until you achieve mastery.

Proven record of success

Portage is backed by over 40 years of distance education experience.

Accreditation

Students completing courses through Portage Learning receive college credit for their courses through Geneva College.

Geneva College is an accredited institution by the Middle States Commission on Higher Education.

“ *The course I took through Portage Learning was a great experience. I had a better understanding of the subject because I was actually able to learn and complete the material when I had the time. It was less stressful than a typical class because I was able to complete the modules at my own pace! That is crucial with working and trying to go to school at the same time. I would highly recommend this program.* **”**
